

# why skateboarding?

## WHY IS HERE SHOULD BE A REASON?

You don't need a reason to love something. Everyone just finds what he sincerely loves and is just happy to do it. It makes no sense to look for reasons in the love of things.

This is something that  
**CANNOT BE EXPLAINED.**

## IT'S JUST BOARD WITH 4 WHEELS!!!

This is definitely a board that has 4 wheels. But it's something more, It's clothes, creativity, music, people, sports, lifestyle. In other words, it is **CULTURE**. Culture that appeared in the late sixties in the United States.

But it took root **ALL OVER THE WORLD.**

# what it is?

## IS IT SPORTS OR ART?

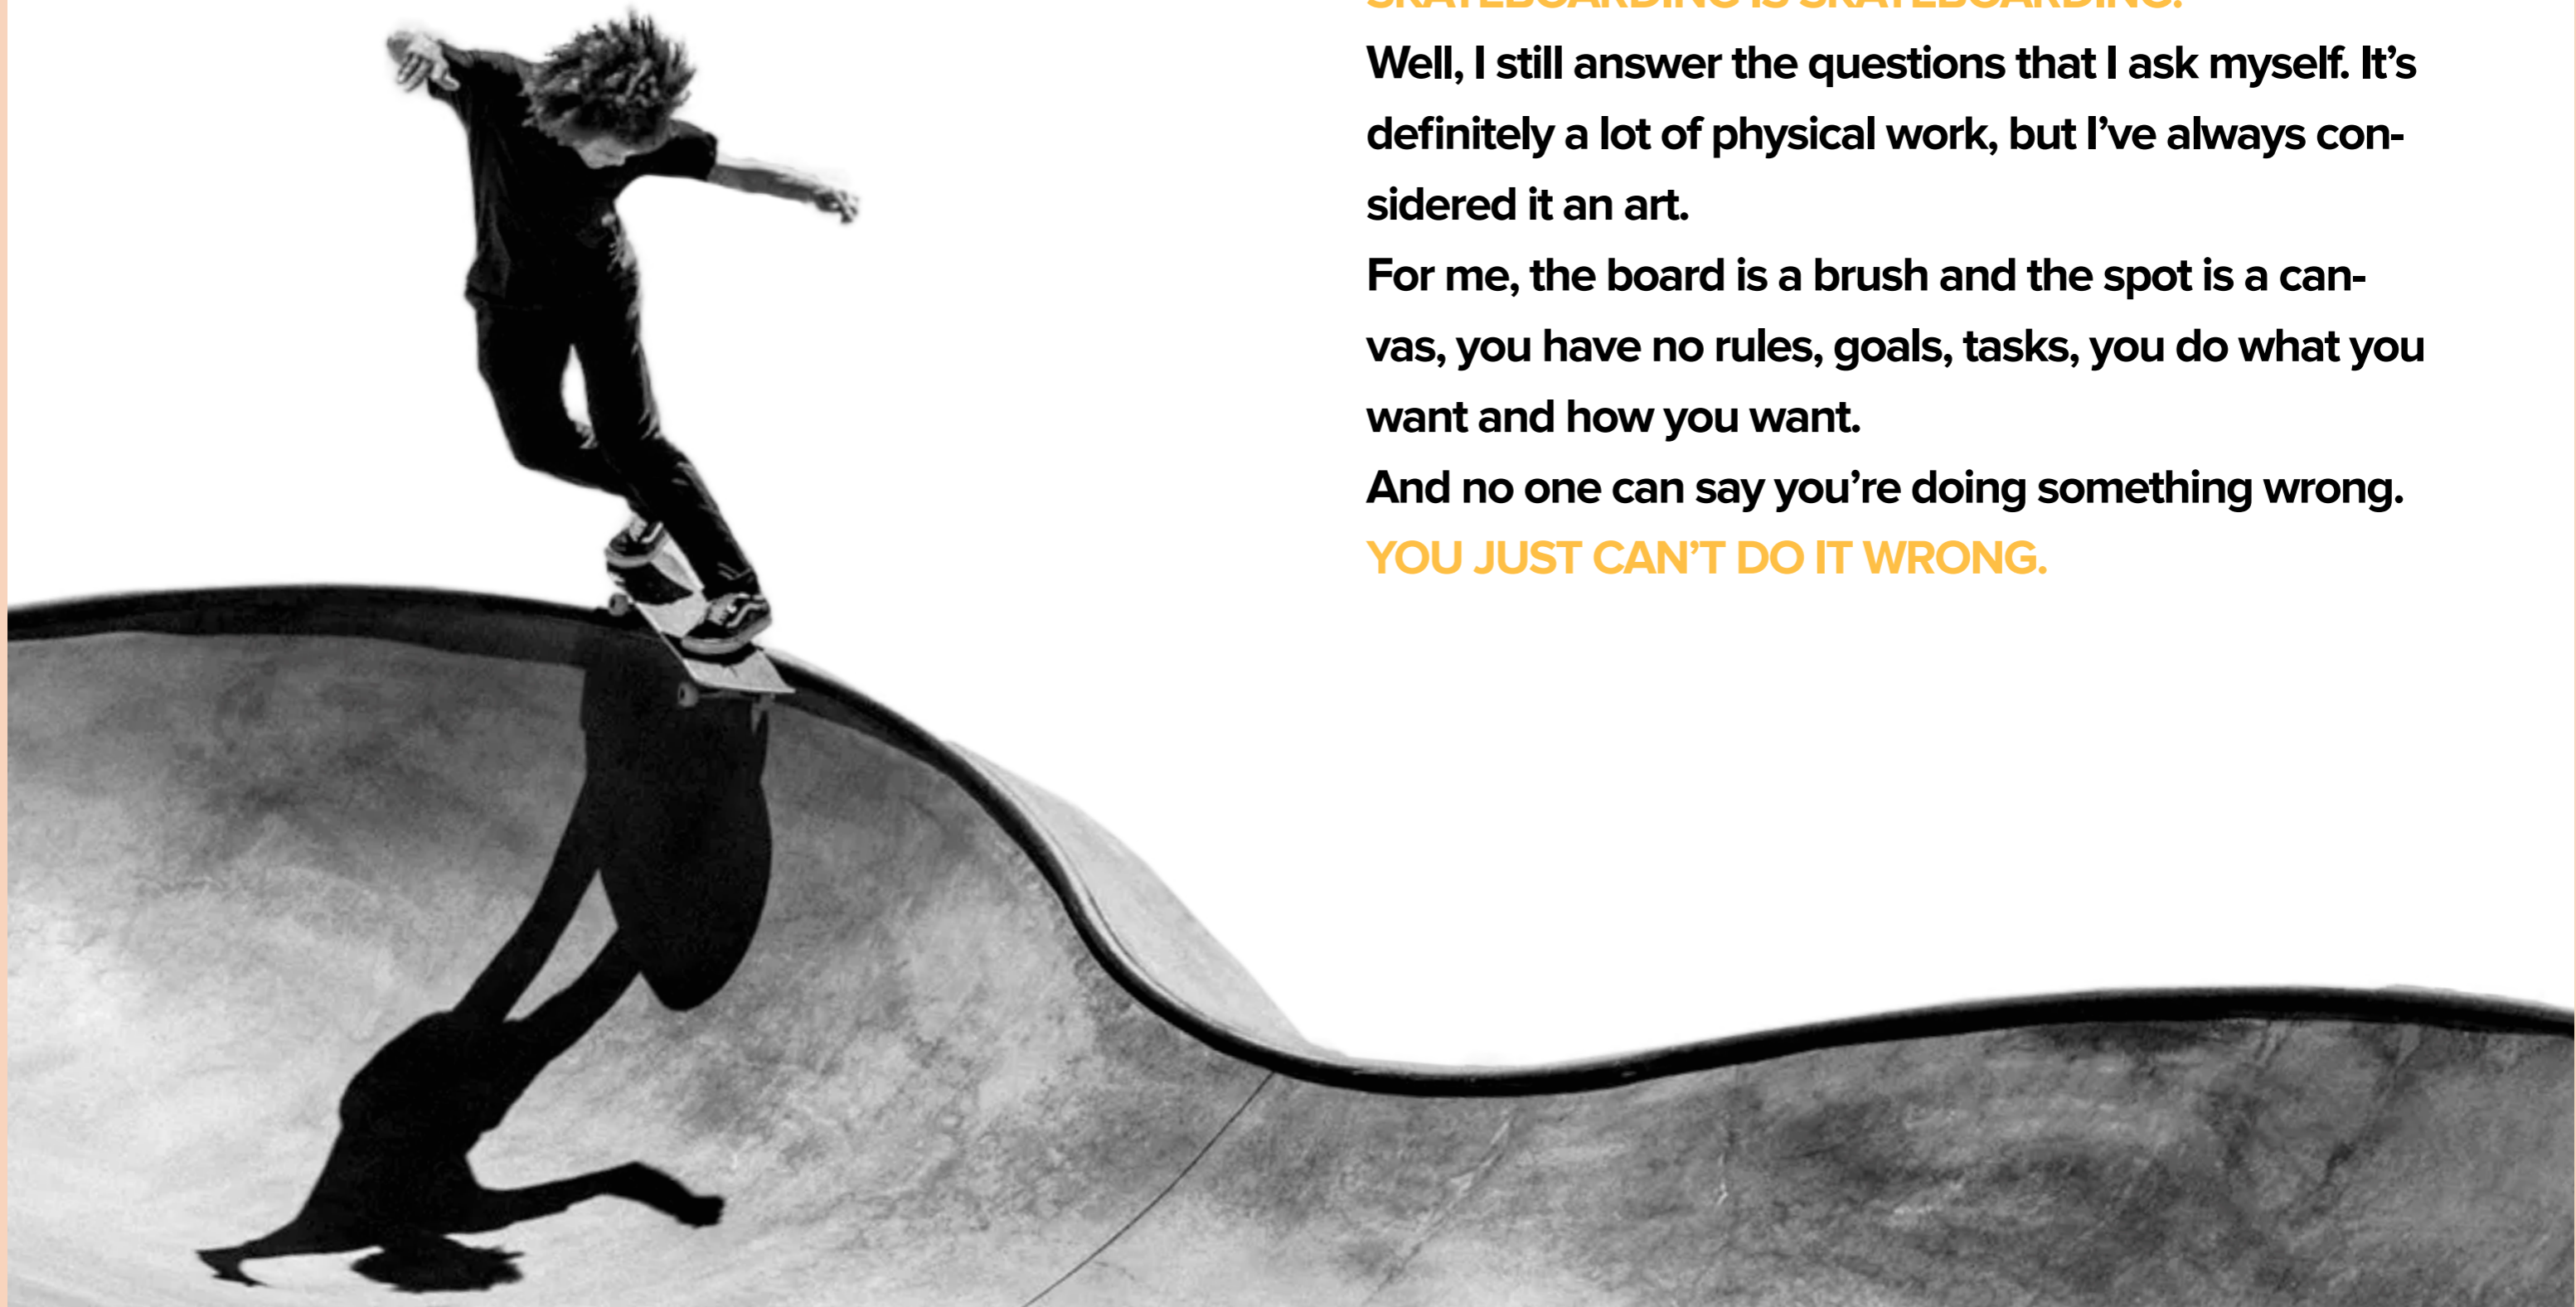

**SKATEBOARDING IS SKATEBOARDING.**

Well, I still answer the questions that I ask myself. It's definitely a lot of physical work, but I've always considered it an art.

For me, the board is a brush and the spot is a canvas, you have no rules, goals, tasks, you do what you want and how you want.

And no one can say you're doing something wrong.

**YOU JUST CAN'T DO IT WRONG.**

# what I love the most!

## COMMUNITY

Of course, I can't speak for every skater, because according to the Internet, more than **80 MILLION PEOPLE** ride in the world. But I can say for sure, this is the most pleasant community that I have seen, you will always find support, efforts for the trick you have done **WILL ALWAYS BE APPRECIATED.**

And what I liked the most is that there is no elite here, you can't imagine a football star coming to train in a regular stadium, but the best skaters skate in parks and on spots where everyone skates.

When you start skating, you don't just discover a new hobby, you become part of **SOMETHING BIGGER.**
