

has mastered bachelor's degree programs in electrical engineering with following subjects in the sphere of automatics and technical system management

## REPUBLIC OF LATVIA

---

Subject	Hours	Estimation
Metrology and measuring	80	good
Computing technologies and systems	96	good
Automatic components and devices	180	excellent
Automatic control theory	238	good
Teleautomatics	232	good
Automatic single-chip devices	80	excellent
Automated local systems	120	excellent
Automated management of technical systems	64	good
Robotic systems and technological complexes	136	excellent
Mathematical Systems Theory	134	good

---

## DIPLOMA

and passed bachelor's examination successfully.

Decan /signature/

**Riga**  
**Technical University**

upon the resolution Nr. 365 given by the  
Council of Faculty of Automatic and Computer  
Techniques on July 1, 1994

**BACHELOR**  
**DIPLOMA**

Riga

has received

engineering

**BACHELORHOOD**

of electrical sciences

stamp
